accessible emergency response

The Howick Township Fire Department would like to recognize Rolling Acres Grain Inc. and the Renwick Family for their generous donation toward the purchase of all-season tracks for the department's UTV. This contribution followed a very successful snowmobile poker run hosted by Rolling Acres in 2025 and reflects their continued support of local emergency services.

The UTV was originally purchased in 2019 using Provincial grant funding. In 2025, the Township of Howick funded a custom pump and stretcher unit for the rear of the UTV, significantly expanding its operational capabilities. The new all-season tracks were made possible through the \$4,000 donation from Rolling Acres Grain Inc., combined with \$2,500 raised through fundraising breakfasts hosted by the Howick Firefighters Association.

This UTV is an invaluable tool for responding to snowmobile accidents and fires, patient extrications, field fires, and incidents where access by conventional fire apparatus is not possible. There are only two units of this type in service within Huron County, and the Howick Township

Fire Department is proud to provide this enhanced level of service to the residents of Howick and surrounding municipalities.

The department is currently fundraising for an enclosed trailer to transport the UTV and is hopeful that this final phase of the project can be completed in 2026. For more information on this initiative, please contact us at howickfire@howick.ca or 519-335-3202.

MIND OVER MATTER

The snow and winds keep coming and coming. Buses continually cancelled, roads closed – it feels like a classic winter, though we're not accustomed to those anymore. I still see things I had meant to take care of outside before winter arrived early (and hasn't left), however those tasks will now have to wait for spring. My timeline isn't God's timeline. Something that I'm not always keen to accept.

My daughter is taking piano lessons, and we've had battles about how much time she should be practicing for. When I ask her to set a timer for five minutes, she moans and groans. But when I ask her to just play and I'll run a stopwatch on my phone, she tends to carry on for ten minutes

without a fuss. She loves to play piano but doesn't like to be told for how long. It's all about the mind set.

We can be a bit like that sometimes too. We want to do things our own way, without expectations or following rules. Sometimes it's good to do your own thing, while other times it might mean things don't get done, or not done correctly. Usually there is a reason why rules exist. I guess it depends on what you're doing – creativity and thinking outside the box is important too... lots of inventions wouldn't exist if people were afraid to try to do things differently. It's about finding the balance...

Here's to getting things done, whether traditionally or in a different way.

CURBSIDE GARBAGE AND RECYCLING - MISSED COLLECTIONS

As we continue to navigate the Province's new producer-led recycling system and the ongoing service disruptions being experienced with Waste Management, we would like to sincerely apologize for any missed collections. We understand how frustrating these disruptions are, and please know that Township staff share in that frustration. Our priority is ensuring residents receive the reliable waste and recycling services they are paying for.

Township staff are actively working with Waste Management to improve consistency and reliability in curbside collection for all residents. **To help ensure successful collection, all garbage and recycling must be placed at the curb by 7:00 a.m. on your scheduled collection day.** If materials are not curbside when the truck passes, this is not considered a missed collection. Waste Management collection vehicles are equipped with GPS technology and will soon include onboard cameras to further monitor and verify curbside pickups.

If you experience a missed collection, we ask that you first contact Waste Management at 1-800-561-1655, and then notify the Howick Township Office 519-335-3208. Township staff are closely tracking missed collections and using this information to work with the contractor to address service gaps.

Looking ahead, Howick Township will be transitioning to an WWW.HOWICK.CA/WHIH

automated waste and recycling curbside collection system beginning in 2026. Waste Management Canada is currently awaiting delivery of new automated dual-collection trucks, anticipated to arrive between May and July. Once the new fleet is operational, 64-gallon waste carts will be delivered to all Howick properties, including residential, business, industrial, commercial, and institutional properties. In addition, 95-gallon recycling carts will be provided to all eligible residential properties.

We strongly encourage residents to make full use of the curbside collection service provided. The new cart system will help keep garbage and recycling securely contained, reducing issues with animals, wind, and scattered debris, while also supporting more efficient and consistent collection.

Thank you for your patience and cooperation as we work through these challenges and toward a more reliable and modern waste collection system for our community.

- Permit holders are required to report any active burning. Reporting fires to howick.burnpermits.com can be done through a toll-free number (located on your permit) or through the online portal. The Fire Department staff will be automatically notified of your active burning.

We would like to express our wholehearted gratitude to our home community and to all those who have shown us such incredible love, care, support, and encouragement over the past month and a half since our daughter's brain cancer diagnosis. It has been a truly humbling experience to witness the depth of kindness and thoughtfulness that has been extended to our family.

There are honestly too many people to thank individually. We think of our families, close friends, colleagues, our wider community, our church family, and even people we have never met, who have reached out in meaningful ways. Thank you for every message, prayer, kind word, thoughtful gesture, offer of help, and generous act of support. Each one has carried us through moments that felt overwhelming.

We hope this message reaches all those who have been there for us and who have so graciously given their time, effort, love, and resources to support our family. Please know that your kindness has not gone unnoticed. We are deeply grateful and continue to trust God as we walk this journey, knowing we are not alone.

With thankful hearts,

Our first meeting was held on Thursday, January 8th. We were very pleased to have photographers Gary Moon and Mark Robinson at our meeting. A very informative session was presented by Gary. He brought a large variety of his enlarged printed photos for display. He gave many suggestions when looking through the view finder or at a scene. Here are a few.... Is it eye catching? Is there a WOW factor? Do I see a photo within the photo? What is the final use for the photo? You need to leave room to crop to the desired size! Also consider better use of composition, colour balance/design, lightning and point of view, you need to move up and down to take higher and lowers photos. Does your photo engage the viewer? Gary gave an excellent slide show presentation! We thank Gary.

Want to know more? Come to our next meeting! This meeting will be a presentation by Mark Robinson. It will be held on Thursday, February 5th at 7pm in the Meeting Room of the Brussels Library.

December to March we meet the first Thursday of the month at 7pm in the Brussels Library Meeting Room. April to November the 1st and 3rd Thursday. Come join us and have some fun!

GIFTS & GRATITUDE

On December 17, 2025 the Fordwich Village Nursing Home held their annual Family and Resident Christmas Party with music provided by The Hayward's. Afterwards, Santa paid them a surprise visit complete with gifts that reflected each individual Resident's likes. Everyone was so thrilled with this afternoon of fun and frolic! Thank you to everyone who helped to

organize and those who were a Secret Santa for the Residents at Christmas time. What an amazing and generous community we live in! A true example of how our Fordwich Family is part of a larger family.

COMMUNITY SPIRIT

Hockey Day was a huge success, bringing our community together for a full day of local hockey. It was great to see the arena packed with fans and happy kids on and off the ice. A sincere thank you to all the volunteers and organizers who helped make the day run smoothly, and to everyone who came out to support. The strong turnout and positive energy truly showcased the spirit of our community.

THANK YOU

Thanks to all our plow operators for continuing to clear the way as we've experienced snow upon snow upon snow this winter.

It was a frosty -19 on New Year's Day, 2026. A beautiful way to start the new year.

In the December issue of "What's Happening in Howick," readers of this column were challenged to identify ten different white flowers. As promised, here are the answers:

1. **LILY TREE**, variety 'Pretty woman'. Bulbs for those lilies average \$6 each.
2. **BRIDAL WREATH SPIREA**. This hardy shrub puts on a great show in early spring.
3. **QUEEN ANNE'S LACE**. Although often regarded as a weed the umbel shaped flowers truly resemble lace. There are several look alike plants including the herb Sweet Cicely.
4. **CANDYTUFT** a low growing ground cover. Virtually evergreen, spreads slowly.
5. A young **CHERRY TREE** in full bloom, followed by hundreds of cherries always picked by birds before humans get a chance, variety Cupid, companion dwarf cherries are Romeo and Juliet rounding out the Shakespeare trio.
6. **CLEMATIS**, variety 'Toki'. Clematis are available in a rainbow of colours.
7. **PEONY**. Variety unknown. Peonies are very long lived and are also available in a wide range of colours and flower forms, from single to double.
8. **SWEET WILLIAM**, a member of the Dianthus family. Like many other plants the flowers come in a variety of colours. A cottage garden favourite, easy to raise from seed but they don't flower until the second year.
9. **PHLOX**, variety 'David', a fairly tall variety, best at the back of a border flower bed.
10. **HYDRANGEA**, variety, 'Annabelle.' One of the older varieties but very reliable with dozens of large (30cm) flowers that last for weeks. The blooms dry well for winter arrangements.

Well done if you named every plant correctly.

The Bloomers will meet on **February 9th at 2pm**, Howick Community Centre.
