Dear Caitlin Gillis

I, Dustin Martin, am writing this letter of appeal regarding the Weber No. 7 Drain 2024.
It is in my belief that my land has been assessed an amount that is too high.
I am asking for a re assessment of my property

I find it hard to believe that the amount of water, that was specified in the engineers package, would make it's way to the Weber Drain. My land is all gravel/hill/forest. I would like evidence that supports the engineers model of water shed off of my land, into the Weber Drain.

Thanks

Sincerely

Dustin Martin
